## **DETAILED ACTION**

## Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1, 3, 4, 6, 8 and 28-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hoopingarner et al in view of Brayden et al. Applicant's arguments have been considered but are not deemed persuasive. Applicants have amended claim 1 to include various process limitations and have added claims 29 and 30, which also are directed to process limitations. However these process limitations do not add any structurally distinguishing features to the final product and therefore are not patentably distinguishing. Applicants argue that the instantly claimed product is made by a different process than the process used to make the prior art product. The fact that applicants' product may be made or used in/or a different process does not structurally distinguish it over the prior art product. Regarding the amendment to claim 28, the primary reference discloses adhering the impermeable layers 38 to the core layer; see column 4, lines 14-21.

## Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
